Internship

August 2023 - March 2024/ Futura Labs Kozhikode - Kerala
MERN Stack Developer

- I've invested significant time honing my skills in the MERN stack, which includes MongoDB for database management, Express.js for building scalable server-side applications, React.js for building user interfaces, and Node.js for handling server-side logic.
- I've worked on projects that encompass the entire stack, allowing me to gain a comprehensive understanding of how each component interacts

Work Experience

October 2022- July 2023/ UP2 TECH PVT. LTD Kunnamkulam - Thrissur
Web Developer

- Assist the senior developers and project managers by writing codes and contribute to the design and development of appication features.
- Develop and Design customized websites and live websites using Word press.
- Design websites using theme customization ,Html , CSS.
- Get a deeper look at the front end development.
- Experience with Plugin Integration.
- Avada Builders, Avada elements, WP forms, Contact forms.

Projects

Food delivery application

- Developed a full-stack web application for odering food using the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Implemented user authentication and authorization to ensure secure access for buyers and sellers.
- Designed and managed a scalable backend using Express.js and Node.js to handle server-side logic and API requests.
- Integrated MongoDB for efficient data storage and retrieval, handling user data, orders, and product listings.
- Built a responsive and dynamic user interface with React.js, ensuring a seamless experience across different devices.
- Implemented shopping cart functionality with real-time updates.
- Optimized application performance and responsiveness to enhance user experience.
- Technologies Used: MongoDB, Express.js, React.js, Node.js, JWT, HTML5, CSS3, VS Code.

Netflix clone

- Developed the frontend using React to create a dynamic and interactive user interface.
- Designed responsive layouts with HTML5 and CSS3, ensuring optimal viewing on various devices.
- Implemented routing for seamless navigation between pages using React Router.
- Integrated third-party movie databases via API calls to display real-time content.
- Used JavaScript for handling user interactions and dynamic content loading.
- Managed project structure and codebase using Visual Studio Code (VS Code).
- Technologies Used: React, JavaScript, HTML5, CSS3, REST APIs, React Router, VS Code.

E-Commerce Website

- Developed a fully functional e-commerce website using JavaScript, HTML5, and CSS.
- Implemented dynamic product listings and a detailed product page using JavaScript, enhancing user interactivity.
- Designed and styled the website's layout with HTML5 and CSS3, ensuring a responsive and user-friendly interface.
- Structured the project and managed the codebase efficiently using Visual Studio Code (VS Code).
- Technologies Used: JavaScript, HTML5, CSS3, VS Code.

Flipkart Clone

- Build a website similar to Flipkart.
- Languages : Javascript,HTML5,CSS
- IDE : VS code

Instagram Clone

- Build a website similar to Instagram.
- Languages : Javascript,HTML5,CSS
- IDE : VS code
